PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in Java, MERN Stack, SQL, and full-stack web development. Strong foundation in DSA, OOP, and DBMS, seeking Software Developer opportunities.

SKILLS

Programming Languages: Java, JavaScript, Python, C, SQL

Frontend Technologies: HTML, CSS, Tailwind CSS, React.js

Backend Technologies: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Linux, VS Code, Jupyter Notebook, Google Colab

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, SDLC, Agile & Scrum

EXPERIENCE

Vodafone Intelligent Solutions (VOIS)

Oct 2025 – March 2026

Graduate Engineer Trainee

Pune, India

- Completed structured training in Java, Python, SQL, Linux, and relational database systems.
- Gained hands-on exposure to backend and full-stack development concepts including REST APIs, server-side architecture, JavaScript and MERN stack workflows.
- Gained exposure to Agile methodologies, SDLC practices, JIRA, DevOps concepts, cloud fundamentals, Selenium testing, and Oracle technologies (PL/SQL, Oracle DB, Oracle BRM).

INTERNSHIPS

Technophilia Solutions (B-Club IIT Kharagpur)

July 2024 – Aug 2024

Machine Learning Intern

Remote

- Developed an Amazon Product Review Sentiment Analysis application using Python, Scikit-learn, and NLTK.
- Implemented Random Forest and SVM models for sentiment classification, achieving testing accuracies of 91.8% and 89.7% respectively.
- Built an interactive Streamlit-based interface for real-time sentiment prediction and visualization.

Tezpur University

June 2023 – July 2023

Academic Intern

Tezpur, Assam

- Developed an Electricity Billing Management System with customer registration, billing, payment, and receipt management functionalities.
- Designed and managed relational database tables for customer, bill, payment, and invoice records, enabling efficient data storage and retrieval.
- Implemented user authentication, CRUD operations, and stored procedures for customer and billing management using C# and SQL.

PROJECTS

Online Bookstore Web Application – MERN Stack

🐙 GitHub

- Developed a full-stack bookstore application using MongoDB, Express.js, React.js, and Node.js for managing book records and inventory.
- Implemented CRUD operations and RESTful APIs for efficient book management and data handling.
- Designed a responsive user interface using React.js, Tailwind CSS, and MongoDB integration for dynamic data management.

Student Performance Analyzer – Java, JavaFX, JDBC, MySQL

🐙 GitHub

- Developed a desktop application to analyze and track student academic performance across assignments, quizzes, and examinations.
- Integrated MySQL database using JDBC for storing and managing student records and performance data.
- Implemented data visualization using JavaFX charts to display subject-wise and exam-wise performance trends.

EDUCATION

Dibrugarh University Institute of Engineering and Technology

Aug 2021 – July 2025

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.66
